

# CAMA

Colorado Advanced Manufacturing Association

## REPRESENTING MEMBERS ON STATE AND FEDERAL POLICY

### *STRENGTH IN NUMBERS*

CAMA was created by manufacturers for manufacturers. We understand that we are more successful when we speak with a collective voice. The more we rally together, the stronger we are as an industry.

As a Member of the National Association of Manufacturers (NAM), CAMA participates in national grassroots manufacturing outreach efforts. Through CAMA's Board of Directors, Colorado manufacturers have a voice on the NAM Executive Committee and Board of Directors. CAMA is making certain Colorado's small and medium manufacturers are represented in Washington D.C.

Committed to a strong and vibrant Colorado manufacturing economy, CAMA is partnered with the Colorado State Chamber of Commerce to monitor and, when necessary, impact legislation and regulations that can impact your business. We advocate on behalf of our members through coalitions and member meetings with our legislators.
