# TALENT MARKETPLACE

Powered by: **Indigo**  **Pathway**

The **CAMA Talent Marketplace** connects companies, in real time, with candidates based on the company's specifications. The **CAMA Talent Marketplace** has been developed by manufacturers for manufacturers. We understand the importance of a skilled workforce, and have worked to simplify the hiring and training process, allowing Colorado manufacturers to do what they do best — **Make Things!**

Companies post jobs and receive matching applicants. The **CAMA Talent Marketplace** connects companies like yours with candidates based on the qualifications, experiences and proven skills you require.

You can create your company profile and include videos describing your company and work culture.

You will have your own dashboard to manage postings, adjust skills needs and requirements, and keep track of the number of jobs listed. Employers will also be able to receive job seeker resumes.

What are you waiting for? Get started here:

[CAMA Talent Marketplace](https://coloradomanufacturing.org/Talent)

CAMA is recruiting and training new candidates for manufacturing careers. Candidates are encouraged to build their profile and or resume within the **CAMA Talent Marketplace**.

Using a skills-focused match process powered by Indigo Pathway, the **Talent Marketplace** connects new talent with companies seeking their skill sets. Remove the middleman and put yourself in the driver seat.
